

Medical Cost Remedy, Inc.

Corporate Fact Sheet

Company Overview Medical Cost Remedy (MCR) is the fastest growing specialty review company in the country. MCR helps payers of medical claims in the group, workers' compensation, auto, and liability arenas combat inaccurate and egregious charges by health care providers. Our services are based on in-depth financial, medical, and legal analytics of public and proprietary data sources. We merge this information with innovative leading technology to deliver objective, comprehensive payment recommendations with maximum savings for our clients.

Technology Platform At the core of Medical Cost Remedy's specialty review process is our Reduce-A-Bill™ and STAT Review™ web enabled software. This is the only software solution available to payers that allows them to perform true specialty bill review of hospital and medical claims for a fraction of the costs of outsourcing. Utilizing contemporary technology such as .Net, XML, and web services, the client is assured of seamless compatibility with all available databases and claims management systems.

MCR Advantages

- Robust databases comprised of information garnered from more than 20 million health care claim transactions
- Instantaneous turn-around-time on all claims
- Obsessive commitment to exemplary customer service
- Decreased administrative costs passed on to the client for unparalleled ROI
- Full defense and warranty of all payment recommendations

Leadership

- Kevin Hatchett, M.D., CEO and Founder
- Bailey Smith, Vice President Operations
- David Moody, CTO
- James Thompson, Vice President Sales and Marketing
